The Examiner is respectfully requested to enter these amendments into the above captioned case prior to examination thereof. Applicants respectfully assert that no new matter is added as a result of these amendments.

Applicant respectfully requests that the USPTO update their records to reflect a new Docket Number for the above-captioned case, CRDC-P0378.

Thank you.

RESTRICTION

In the Office Action mailed June 22, 2005, in the above captioned case, the Examiner has stated that the present Application contains three distinct inventions. As such, the Examiner has required the Applicant to elect a single invention for prosecution on the merits. Specifically, the Examiner has required the Applicants to elect between a first invention, Group I, recited in Claims 1-8, drawn to a calibration system for a test system, a second invention, Group II, recited in Claims 9-15, drawn to a method for determining a relative timing offset value for a test signal line belonging to a group of test signal lines in a test system, classified in class 324, subclass 158.1, and a third invention, Group III, recited in Claims 16-20, drawn to a method for calibrating a group of test signal

sources and associated lines in a test system, classified in class 324, subclass 158.1

ELECTION WITHOUT TRAVERSE BETWEEN
GROUPS I, II & III

Applicant elects without traverse Group I, drawn to a calibration system for a test system as recited in Claims 1-8.

CONCLUSION

Claims 1-8 remain pending in the present application. Claims 9-20 are canceled as directed to non-elected species. The Examiner is respectfully requested to enter these amendments into the above captioned case prior to examination thereof. Applicants respectfully assert that no new matter is added as a result of these amendments.

The Examiner is invited to contact Applicants' undersigned representative if the Examiner believes such action would expedite resolution of the present Application.

Respectfully submitted,
